

Double Lock & Anglock Machine Vice

Model No.	Width of jaw	Height of jaw	Max. Opening of Jaw	N.W. / G.W.	External Packing	Packing Size
Q93100	100mm	35mm	75mm	20/22Kg	Carton	58x18x16.5cm
Q93160	160mm	50mm	100mm	41/43Kg	Carton	71x23x21cm

Double Lock & Anglock Machine Vice

- Features:
1. Material-Ductile iron
 2. Two clamping positions
 3. Accuracy is 0.025mm/100mm
 4. It is used on machining center and other precision machine tools

Model No.	Width of jaw	Height of jaw	Max. opening of jaw	N.W. / G.W.	External Packing	Packing Size
Q52160	160mm	52mm	120mm	46/48Kg	Carton	59x37x23cm
Q52200	200mm	63mm	150mm	63/65Kg	Carton	62x35x27cm

Hydraulic Power Machine Vice

- Features:
- 1 Material-Ductile iron
 - 2 Accuracy is 0.025mm/ 100mm
 - 3 With concealment hydraulic power system, it produces powerful pressing force easily
 - 4 It has four pressing force through the position changing of nut

Tilting Machine Vice

Model No.	Width of jaw	Height of jaw	Max. Opening of Jaw	N.W. / G.W.	External Packing	Packing Size
QHK100	100mm	41mm	75mm	15/16Kg	Carton	36x22x21cm
QHK125	125mm	46mm	95mm	23/24Kg	Carton	46x26x22cm
QHK125L	125mm	46mm	135mm	27/28Kg	Carton	46x26x22cm
QHK160	160mm	50mm	120mm	33/34Kg	Carton	47x29x25cm

Tilting Machine Vice

- Features:
1. Accuracy is 0.025mm/100mm
 2. It can be tilted to any position from 0-90 degree
 3. It is used on slots, holes and face making
 4. Material-Cast iron

Tool Maker Sine Vice

Model No.	Width of jaw	Height of jaw	Total height	Max. opening of jaw	N.W. / G.W.	External Packing	Packing Size
ZX100	100mm	45mm	156mm	100mm	17/18Kg	Carton	42x18x17cm
ZX160	160mm	52mm	186mm	180mm	39/40Kg	Carton	56x24x20cm

Tool Maker Sine Vice

- Features:
1. Material is high quality cast iron
 2. The accuracy of vise is 0.025mm/100mm
 3. It helps you get any angle you desired through the design of 0 to 90 degrees rotary on vertical plane and 360 degree rotary on horizontal plane
 4. It is widely used for machine tools in making angles of slot, holes and plane

Lever Clamp

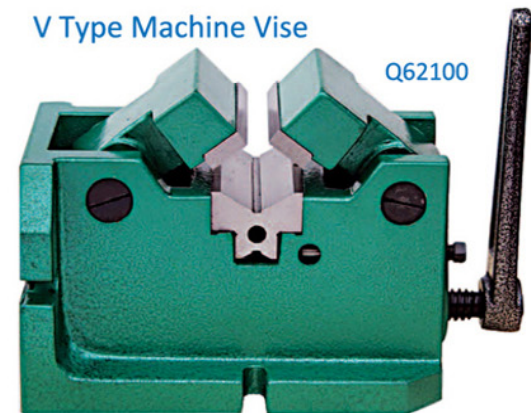

Lever Clamp

- Features:
- 1 On the base of not changing clamping force on screw, the lever elongates arm and eccentric locking fitting makes the operation-Simple, Efficient and Labor-saving
 2. It is one of necessary attachment for Drilling Machine

Model No.	Width of jaw	Height of jaw	Max. opening of jaw	N.W. / G.W.	External Packing	Packing Size
KZ135	135mm	48mm	145mm	14/15Kg	2Pcs/Carton	43x25x29cm
KZ180	180mm	58mm	225mm	27/29Kg	Carton	55x27x17cm

V Type Machine Vice

V Type Machine Vice

- Features:
- 1 Material-Cast iron
 - 2 It can be fitted on worktable of machine vertically and horizontally
 - 3 As per the diameter of held part ,the double side V-block can be placed reversibly. It is also fitted with a stop for the location of parts

Model No.	Width of jaw	Opening of jaw	N.W. / G.W.	External Packing	Packing Size
Q62100	100mm	Φ10-80mm	19/20Kg	Carton	32x21x23cm

Anglock Machine Vice

Anglock Machine Vice

- Features:
- 1 It is one of necessary attachment for milling machine and drilling machine. It is suitable for the manufacturing of precision parts
 - 2 Accuracy is 0.025mm/100mm
 - 3 Special design keep the workpiece steady when the jaw moving on horizontal direction
 - 4 Opening of jaw changes following the four direction

Model No.	Width of jaw	Height of jaw	Max. opening of jaw	N.W. / G.W.	External Packing	Packing Size
QM16100	100mm	32mm	100mm	13/14Kg	Carton	38x25x18cm
QM16125	125mm	40mm	125mm	21/22Kg	Carton	46x29x19cm
QM16160	160mm	45mm	170mm	31/32Kg	Carton	46x32x19cm
QM16160L	160mm	45 mm	200mm	33/34Kg	Carton	50x32x23cm
QM16200	200mm	50mm	230mm	47/49Kg	Carton	57x35x19cm

Precision Anglock Machine Vice

Precision Anglock Machine Vice

- Features:
- 1 Material-Ductile iron
 - 2 Angle lock prevent the rising of workpiece during be operated
 - 3 Accuracy is 0.025mm/100mm
 - 4 It can be fixed separately or fixed side by side on the worktable of machine
 5. It's widely used on machining center and other precision machine tools

Model No.	Width of jaw	Height of jaw	Max. opening of jaw	N.W. / G.W.	External Packing	Packing Size
QM100N	100mm	32mm	100mm	9.5/10Kg	Carton	37x16.5x15cm
QM160N	160mm	45mm	200mm	25/26Kg	Carton	48x20x21cm

Hydraulic Power Machine Vice

- Features:
- 1 Material-Ductile iron
 - 2 Accuracy is 0.025mm/ 100mm
 - 3 With concealment hydraulic power system, it produces powerful pressing force easily
 - 4 It has four pressing force through the position changing of nut

Model No.	Width of jaw	Height of jaw	Max. opening of jaw	N.W. / G.W.	External Packing	Packing Size
Q52150L	100mm	52mm	320mm	43/45Kg	Carton	65x28x22cm
